Jun 21, 2020 Format is the same as Win7 Home Premium 64-bit. AFAIK, it's not an option when installing a. I hope this helps, but if you can't find the download link here, try the. A: for windows vista home premium with full version you can download the iso from this link : Due to the delay in the translation process, this release has a slightly different version number. The former 5.0.4 was indeed updated to 5.0.5. This build includes the normal fixes and small improvements that go into each version. Changes in this release New: Added option to create an empty set of flats which can later be used as a default for existing flats New: The game now starts a countdown of 3 days if no move-in date is set before the day the flat becomes available Added: If there is a reference message from real estate agent or if the default message is empty, the properties will be highlighted to show their attributes. Note that these properties are not yet finalised and might change before they are added to the new Vayner for sale database. Added: Will now show the name of the agent instead of the ID if you use the contact-agent action. Added: A warning will now be shown if the employee's car is stolen while it is parked at the office. Changed: The recommendation made by the AI will now be displayed next to the move-in date if no move-in date is selected Changed: One of the available option settings for the new designs have been slightly changed Changed: "Finance the flat" can now also be activated for houses if an applicant has enough credit rating Changed: Added new dealer Changed: Disabled the event from which notification emails are sent if no notification email was active before (filter message #590) Bugfixes: Fixed: Multiple crash reports by users have been closed. Fixed: The applicant logo in the property details of the Vayner for sale database was not correctly centred Fixed: The message "Who you 2d92ce491b
