Merci A: Using javascript you can intercept a click on that link. From there you can do a POST with cURL to another web page. But this is a user hostile way of doing this. Having said that... assuming you can get the users IP address (technique explained here) you can find host names for them by using a WHOIS look up. If they have a static IP you can look up the IP address and find their names, if they are dynamic (like a cloud IP) then it's more complicated. The way you could go about this is using an IPFetch tool like this to find domains owned by that host name. Note: This is a VERY HARD WORLD in which we work and this will not be easy at all!

This is a tutorial video for the Tea Of Assurity shirt design set by Collabor88 Description: If you want to make this design, all you need to do is follow the instructions on the printable PDF file. This is a PDF to cut out the pieces, with the instructions for how to put them together. The file is in A4 landscape format. You will need to print on double sided, printer paper. If you would like to make a custom shirt for yourself, you will need a photo of yourself to add the text to. You will also need a flat, coloured pen, preferably a pen that has high quality ink. Glue is also used. Paper glue, but it doesn't need to be strong. The shirts are wearable, although you can sew them on if you would prefer. Prints are easy and very cheap, so there is no excuse not to give it a go!

How do you purchase it? You can buy them as a part of a bundle from the Lazy Mermaid Shop Any questions? Please ask in the comments section below and we will get back to you. If you would like more info on our clothing you can also find it on our site, it's over in the About the Merchandise section.
