Best DejaVu TrueType fonts - Google Fonts The DejaVu Sans family comprises a complete set of fonts, featuring weights from ultra-light to black, for body text, geometric shapes for headlines and display text, and special sets for display text and monospaced text, as well as versions for small and tabular faces. Mainly designed with readability in mind. The family covers Asian, European and mathematical writing scripts. No other families are more broadly used by Web designers and developers in general than DejaVu Sans family, as they seem to be the de facto font of the Web from 2006 until today. DejaVu Sans Mono is a continuation of the Sans family with more or less the same feature set. Only the larger number of characters and more weight classes provides Mono with additional variation. Embracing the traditions of the classic serif typeface designs of the 19th and 20th centuries, the artistic and condensed style of the DejaVu family evokes an air of elegance, solidity, and strength. DejaVu Sans Mono is a continuation of the Sans family with more or less the same feature set. Only the larger number of characters and
